this book examines the use principally in economics of the concept of the invisible hand centering on adam smith it interprets the concept as ideology knowledge and a linguistic phenomenon it shows how the principal chicago school interpretation misperceives and distorts what smith believed on the economic role of government the essays further show how smith was silent as to his intended meaning using the term to set minds at rest how the

claim that the invisible hand is the foundational concept of economics is repudiated by numerous leading economic theorists that several dozen identities given the invisible hand renders the term ambiguous and inconclusive that no such thing as an invisible hand exists and that calling something an invisible hand adds nothing to knowledge finally the essays show that the leading doctrines purporting to claim an invisible hand for the case for capitalism cannot invoke the term but that other nonnormative invisible hand processes are still useful tools

adam smith s landmark treatise on the free market paved the way for modern capitalism arguing that competition is the engine of a productive society and that self interest will eventually come to enrich the whole community as if by an invisible hand throughout history some books have changed the world they have transformed the way we see ourselves and each other they have inspired debate dissent war and revolution they have enlightened outraged provoked and comforted they have enriched lives and destroyed them now penguin brings you the works of the great thinkers pioneers radicals and visionaries whose ideas shook civilization and helped make us who we are

this volume consists of papers derived from the ninth international conference on studies in economic ethics and philosophy seep held at trent university in peterborough ontario canada in june of 2002 let me take this opportunity to express my appreciation to professor peter koslowski for his original stimulus encouragement and continual assistance in making the conference a success i would also like to thank my trent colleague professor david holdsworth for his steadfast help in the management of the conference and the papers resulting from it i am obliged to mr louis taylor of north george studios in peterborough for his expert professional service in preparing the manuscript for printing finally let me gratefully acknowledge the generous financial sponsorship of the conference by the social sciences and humanities research council of canada and trent university s department of philosophy and graduate centre for the study of theory culture and politics bernard hodgson department of philosophy trent university peterborough ontario canada may 2004 contents preface ix introduction bernard hodgson 1 part one setting the problem chapter 1 public interest and self interest in the market and the democratic process peter koslowski 13 chapter2 the invisible hand and thinness of the common good richard de george 38 contents part two constraining the invisible hand chapter 3 hiring invisible hands for public works edwardj nell 51 chapter4 a market failures approach to business ethics joseph heath 69 chapter 5 abstractions and conceptual automata in economics and non economics stephen regoczei

introduction law s invisible hands setting the stage social organization in the informal realm

social organization in the formal realm integrating the informal and formal in smith s theory the spectator view judgment and justice the sentiment of common interest the impartial spectator homo economicus and homo identitas understanding the four stages of progress adam smith in american law parting thoughts

here is a bold history of economics the dramatic story of how the great economic thinkers built today s rigorous social science noted financial writer and economist mark skousen has revised and updated this popular work to provide more material on adam smith and karl marx and expanded coverage of joseph stiglitz imperfect markets and behavioral economics this comprehensive yet accessible introduction to the major economic philosophers of the past 225 years begins with adam smith and continues through the present day the text examines the contributions made by each individual to our understanding of the role of the economist the science of economics and economic theory to make the work more engaging boxes in each chapter highlight little known and often amusing facts about the economists personal lives that affected their work

self interest before adam smith inquires into the foundations of economic theory it is generally assumed that the birth of modern economic science marked by the publication of the wealth of nations in 1776 was the triumph of the selfish hypothesis the idea that self interest is the motive of human action yet as a neo epicurean idea this hypothesis had been a matter of controversy for over a century and smith opposed it from a neo stoic point of view but how can the epicurean principles of orthodox economic theory be reconciled with the stoic principles of adam smith s philosophy pierre force shows how smith s theory refutes the selfish hypothesis and integrates it at the same time he also explains how smith appropriated rousseau s republican critique of modern commercial society and makes the case that the autonomy of economic science is an unintended consequence of smith s republican principles

today s neoliberal imperialism crushes all unfavourable conditions through multiple forms of oppression to ensure the creation of a world in its own image the systemic and structural oppression birthed by neoliberal imperialism once again reproduces and implements colonialism armed robbery on a global scale the difference between the old form and the new form is the scale of destruction and the overt use of weapons of mass destruction hence the militarization of the globe is a natural outcome in this book professor tatah mentan argues that united fruit company for instance could not have flourished without the strong support of the marines the u s state department and all of its resources in fact the french the german the british and the belgian financiers could not have been able to suck the blood out of their colonies without their legionnaires soldiers mercenaries preachers

merchants and generals specifically the western colonial empires in the nineteenth century presented their penetration pillage and rape of africa asia and latin america as modernization and tutelage aided by the ideology of survival of the fittest this conceit pervaded the entire western bourgeois social science educational and religious institutions and today there is the same clear symbiotic relationship between business and the military empirical realities demonstrate that companies like microsoft could not enjoy its overwhelming prosperity without having the strong military that america has this is precisely why neoliberal imperialism operates alongside oppressive militarism war and dictatorship and must be disrupted to liberate mankind from its death grip

this history of theories and theorists of economic growth elucidates the economic theory economic history and public policy observations of the renowned scholar w w rostow looking at the economic growth theories of the classic economists up to 1870 rostow compares hume and adam smith malthus and ricardo and j s mill and karl marx he then examines the period 1870 1939 and its economic theorists including schumpeter colin clark kuznets and harrod and surveys the three forms of growth analysis in the postwar era formal models statistical morphology and development theories this authoritative overview also includes an agenda of unresolved problems in growth analysis and a description of the five major tasks statesmen will confront over the next several generations

media structures and power is a collection of the scholarly writing of canada s leading communication and media studies scholar robert e babe spanning almost four decades of scholarship the volume reflects the breadth of babe s work from media and economics to communications history and political economy babe famously characterized canadian scholars distinctive contribution to knowledge as uniquely historical holistic and dialectical the essays in media structures and power reflect this particular strength with a clarity of vision babe critiques mainstream economics canadian government policy and postmodernist thought in social science containing introductions and contributions by other prominent scholars this volume situates babe s work within contemporary scholarship and underscores the extent to which he is one of canada s most prescient thinkers his interdisciplinary analyses will remain timely and influential well into the twenty first century

takes a look at contemporary economic analysis and presents a view of the state of economics

this encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society

chapter 1 introduction chapter 2 unintended consequences chapter 3 the origin of money chapter 4 segregation chapter 5 the invisible hand chapter 6 the origin of money reconsidered chapter 7 models and representation chapter 8 game theory and conventions chapter 9 concluding remarks
